

TRACC

THE DEMENTIA RESEARCH AND CARE CLINIC

WHO IS THIS STUDY FOR?

People without dementia aged between 50 - 75

WHAT IS THIS STUDY ABOUT?

We want to understand the changes that take place in thinking, behaviour, the brain and the body over time.

HOW WILL WE DO THIS?

- Cognitive tests (e.g. memory, attention, language)
- Questionnaires
- Gut microbiota analysis
- Blood, genetic and nutrition analysis

WHERE IS THE RESEARCH HAPPENING?

The study is recruiting throughout Norfolk and Suffolk

WHEN IS IT HAPPENING?

Now!
